

OSA 5186-63

27 September 1963

MEMORANDUM FOR : Deputy for Technology, Office of Special Activities
SUBJECT : Reconnaissance Version of TFX

1. In a conversation with Bill Holcomb on 25 September, he told me that the Reconnaissance Project Officer for the TFX responsible for both the Air Force and Navy reconnaissance configurations of this airplane is a Lt. Commander Belk, USN, SPO at Wright-Patterson Air Force Base.

2. Holcomb was on his way to General Dynamics at Forth Worth 26 and 27 September, apparently in Commander Belk's company, and he seemed interested in having it known to you and to your office that Belk was the over-all Project Officer for this recce version and that he, Holcomb, would be happy to do anything necessary to introduce any of us to Belk should we have interests or problems related to sub-systems for this weapons system. The above is for whatever it is worth to you, particularly as it might involve [redacted]
